

# attraBiT HMS

A Complete Hospital Management System  
© attraBiT Technologies & Solutions Ltd.

# What Is attraBiT HMS?

- This Web based **Hospital Management System** is designed for multi specialty hospitals, to cover a wide range of hospital administration and management processes. It is an integrated end-to-end Hospital Management System that provides relevant information across the hospital to support effective decision making for patient care, hospital administration and critical financial accounting, in a seamless flow.

# Why attraBiT HMS?

- **Savings** – Substantial savings in manpower, time and costs through improved productivity.
- **Simplification** – Improved and simplified work / process flow through automation.
- **Quality** – Reduced errors and duplication of work.
- **Centralization** – Consolidation of information into a single point.
- **Optimization** – Empowers better use of existing resources (people, time and money) at the organization.
- **MIS** – Comprehensive reporting on various customizable parameters.
- **Competitive Advantage** – Improved customer satisfaction and market position.
- **Competitive Pricing** – Offering a reasonable price.
